Day, Hartley W., and R. F. Beal.

The Boston numeral harmony; or, Day and Beal's phonography of music, believed to be the most comprehensive and simple musical notation ever published in the world. The elements embrace a newly invented musical notation and sight-singing method, by which schools, classes and private individuals may be taught to read music at sight... in every possible key, in a very few lessons: also, a systematic course of musical elocution and pronunciation of language. The music is nearly all original, arranged ... with special regard to the wants of schools and choirs. By H. W. Day... Boston [, cop. 1845]. 79 p. obl. 16°.
